

## **AlterG - Orthopaedic Rehab**

**Mobility Changer. Confidence Changer.**

### **LIFE CHANGER**

Thanks to its precise unweighting technology, the AlterG Anti-Gravity Treadmill allows you to push your physical therapy rehabilitation and training further than ever before.

You can:

- Reduce gravity's impact by selecting any weight between 20% and 100% of your body weight by 1% increments
- Rehabilitate lower extremity injuries with less pain and less impact
- Improve mobility, strength and safety for those with neurological conditions
- Provide a safe way to lose weight and exercise more intensively while un-weighted
- Train without pain and reduce the stress to joints and muscles
- Recover effectively and with less pain after training or competition
- Walk or run with no pain while maintaining a normal gait
- Reduce stress on joints and injured areas of your lower body
- Give you the confidence and ability to run or walk longer and recover faster with less pain

### **Rehab Pain free**

The innovative AlterG Anti-Gravity Treadmill is a game changer in physiotherapy rehabilitation. Whether you're a patient or an athlete dealing with lower body injuries, chronic pain or neurological conditions that inhibit mobility, you can benefit from the unweighting capabilities.

Unlike any other piece of training equipment available, the AlterG Anti-Gravity Treadmill can take you further, faster than you ever thought possible after surgery, injury or other mobility impairment.
